

To: FCC public comments RE: NAB petition 04-160
Dear Sir,

I'm sending you this email to respectfully urge the FCC to reject the NAB's petition 04-160. I believe in the right to allow XM radio to present local weather and traffic and look forward to it being offered in the Denver market. The other city I listen too appear to be a better public service than that offered by the local broadcast stations in terms of its timely delivery - basically continuously updated keeping me clear of traffic problems before I encounter them.

Finally I enjoy satellite radio as it provides the variety and quality of service not available elsewhere, particularly in regard to the vulgar DJs that are becoming so mainstreet.

Thank you, and please reject the NAB's petition 04-160.
